

Campersand COVID-19 Policies

Campersand COVID-19 policies have been designed to comply with University of New Mexico policies, to keep campers safe, and to minimize potential disruptions to camp and to travel of Campersand families.

Vaccination Requirement

As per [University of New Mexico requirement](#), all camp attendees (including campers, guardians, any accompanying family members, and staff) must be **fully vaccinated**. To be considered fully vaccinated, a person must have “**completed their initial vaccine series, as well as their initial booster dose of the vaccine when eligible according to the FDA.**”

Proof of vaccination must be submitted to Campersand and will be requested during the registration process.

A negative COVID-19 test cannot be accepted in lieu of adherence to the vaccination requirement.

Mask Requirement

Masks are required while indoors at camp.

COVID-19 Screening

Each morning we ask that all camp attendees screen themselves for COVID-19 symptoms. According to the CDC:

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear 2-14 days after exposure to the virus. Anyone can have mild to severe symptoms. People with these symptoms may have COVID-19:

- *Fever or chills*
- *Cough*
- *Shortness of breath or difficulty breathing*
- *Fatigue*
- *Muscle or body aches*
- *Headache*
- *New loss of taste or smell*
- *Sore throat*
- *Congestion or runny nose*
- *Nausea or vomiting*
- *Diarrhea*

Anyone experiencing symptoms of COVID-19 must test. Tests are available for free from Campersand.

COVID-19 Testing

Every camp attendee, including people they are housing with, will be provided with two COVID-19 test kits for testing upon arrival and testing during the week, if needed.

COVID-19 tests are available for free from Campersand and may be requested at any time.

Camp attendees are expected to test upon arrival and when experiencing COVID-19 symptoms.

[Reasons to test](#) include close contact with someone who has tested positive for COVID-19 and experiencing COVID-19 symptoms.

[CDC Testing Guidelines](#)

Exposure Protocol

If you were exposed and are up to date with your vaccination you do not have to isolate **unless** you develop symptoms.

Even if you don't develop symptoms, [get tested](#) at least 5 days after you last had [close contact](#) with someone with COVID-19.

Watch for [symptoms](#) until 10 days after you last had close contact with someone with COVID-19.

If you develop symptoms, isolate immediately and [get tested](#). Continue to stay home until you know the results. Wear a [well-fitting mask](#) around others.

Take precautions until day 10. Wear a [well-fitting mask](#) for 10 full days any time you are around others inside your home or in public. Do not go to places where you are unable to wear a well-fitting mask.

[CDC Quarantine and Isolation Guidelines](#)

Testing Positive for COVID-19

Anyone testing positive for COVID-19 must isolate.

UNM housing asks that those testing positive find alternate housing as soon as possible and vacate UNM premises.

Wear a [well-fitting mask](#) if you must be around others in your home.

[Do not travel.](#)

[CDC Quarantine and Isolation Guidelines](#)

Testing Positive for COVID-19 Prior to Camp

[Do not travel](#) up to 10 days after your positive test or when you first experience symptoms.

Reach out to us with your particular situation.

COVID-19 Best Practices

To help prevent the spread of COVID-19, camp attendees are encouraged to...

- Wash hands thoroughly and often.
- Use hand sanitizer frequently.
- Physically distance when possible.
- Position masks to cover both nose and mouth.
- Cover coughs and sneezes.
- Minimize risk of exposure during the weeks before camp by following the best practices above, monitoring for COVID-19 symptoms, and avoiding crowded events.

If you have any questions about COVID-19 and your situation, please reach out to us, contact Anita.
